ACKNOWLEDGMENTS

The Ministry of Environment, Lands and Parks wishes to acknowledge three partners whose contributions were invaluable in the completion of the *Aboriginal Water Rights Report Series:*

The Ministry of Aboriginal Affairs, was a critical source of funding, support and direction for this project.

The U-Vic Geography Co-op Program, was instrumental in providing the staffing resources needed to undertake this challenging task. Through the services of June Whitmore and her office, the project benefited from the research, writing, editing and co-ordination of these outstanding students:

Jas Gill
Julie Steinhauer
Kelly Babcock
Daniella Mogus
Miranda Griffith
Christina Rocha
Rachel Abrams
Elizabeth Lee
Sara Cheevers

The services of Clover Point Cartographics Limited of Victoria, was responsible for the preparation of most of the map drawings, which form a valuable part of these documents.

In addition to these three key partners, I must acknowledge the valuable contributions of other Water Management staff, past and present, including Jack Farrell, Jim Mattison, Richard Penner, Diana Jolly, Greg Blaney, Gary Lucas and Kim Johnston.

The sheer numbers of First Nations groups' with histories of water rights made the completion of the Report Series seem, at times, prolonged. The determination, patience and vision of the partners was essential in the completion of the Series and is gratefully acknowledged.

Gary Robinson

FIRST NATIONS WATER RIGHTS REPORT

BAND: Cayoose Creek

ADDRESS: PO Box 484, Lillooet B.C., V0K 1V0

CHIEF: Perry Redan

PHONE: 256-4136 **FAX:** 256-4138

AFFILIATION: Lillooet Tribal Council

LOCATION:

The Cayoose Creek Band occupies 3 separate reserves in the Coastal Mountains, south of Lillooet.

The three reserves are:

- Cayoosh Creek 1 - this 107.4 hectare reserve is located along the west bank of the Fraser River and the south bank of Seton River, south of Lillooet.
- Pashilqua 2 - this 317.7 hectare reserve is located south of Cayoosh Creek 1, on the right bank of the Fraser River.
- Pashilqua 2A - this 262.2 hectare reserve is located adjacent to the western portion of Pashilqua 2.

Within the Coastal Mountains, these reserves sit at elevations ranging from 700 feet, near the Fraser River, to 4,600 feet above mean sea level, and experience a climate ranging from an average daily temperature of -5 to -10 degrees centigrade in January to 20 degrees centigrade in July. The average annual rainfall for this area is 30 - 50 centimetres.

The most recent population figures from the Ministry of Finance show Cayoose Creek Band to have a population of 94 persons living on reserve as registered members. It's total population, including registered and non-registered members living on reserve, on crown land and off reserve is 153.

Water courses of significance include:

- Bern Springs, which are located south of Cayoosh Creek Reserve 1.
- Cayoose Creek, which flows northeast, and drains into Seton River.

- Charlie Springs, which are located south of Cayoosh Creek Reserve 1.
- Copeland Brook, which is located south of Cayoosh Creek 1.
- Lush Spring Creek, which flows north, through the western portion of Cayoosh Creek 1, and drains into Seton River.
- McIntyre Spring, which is located south of Cayoosh Creek 1.
- Napoleon Creek, which flows north, through the southeastern portion of Pashilqua 2.
- Pashilqua Brook, which flows through the southwestern portion of Pashilqua 2.
- Seton River, which flows east, along the northern border of Cayoosh Creek 1, and drains into Fraser River.

WATER ALLOCATIONS:

Water Rights of the Cayoose Creek Band have been recorded or affected by five actions of government over the years:

1) Allotments by the Indian Reserve Commissioners.

   Following confederation, the Province and the Dominion established an Indian Reserve Commission to reserve lands for the Indians and for transfer of those lands to the Dominion. In setting apart lands for reserves, the Reserve Commissioners made it their practice to allot water with lands. It is understood that this practice was unique among Indian Reserves in Canada and the authority of the Commissioners to allot water rights has always been disputed by the Province.

2) Lieutenant Governor in Council approval by Order in Council of the granting of water rights.

3) Determinations of the Board of Investigation under the *Water Act, 1914* of claims of the Department of Indian Affairs, and subsequent issue of water licences.

4) Granting of water licences from Federal Government applications for licences for the use of water on reserve.

5) Actions to amend rights under licences pursuant to provisions in the *Water Act.*

HISTORY, CURRENT STATUS, AND NOTES:

No indication has ever been made of any water licences having been granted to the Cayoose Creek Band with respect to Pashilqua Reserve 2A. In addition, no evidence is available to indicate that any allocation of water rights to this reserve has ever been intended.

The history of water rights, the current status of rights and notes for the Cayoose Creek Band with respect to the water sources on Cayoosh Creek 1 and Pashilqua 2 are as follows:

CAYOOSH CREEK #1

History:

Jan 9, 1891 By Order, the Lieutenant Governor-in-Council authorized that a grant of water rights be made in favour of the Cayoose Creek Band for Cayoosh Creek 1.

> *Twelve inches of water from a spring* upon the upper flat of the Reserve."*

*Note: The identity of the spring is unknown.

Notes:

1. As the spring is unidentified, it is not known if allocations made under the *Water Act 1914*, have been made that are comparable to the allocation made by the Order in Council.

Cayoosh Creek & Lush Spring Creek

History:

Aug 29, 1881 Minute of Decision of the Indian Reserve Commission, constituting Cayoosh Creek Reserve No. 1:

> *"250 inches* of water from Cayoosh creek are assigned for use on this reserve."*
>
> *"Also the right of fishing in Cayoosh creek from its mouth to the site of the old bridge, a distance of one mile."*

*Note: The reference to an inch of water is understood to be a "miner's inch" of water. The *Water Act of 1914* defined a miner's inch as being equal to a flow of .028 cubic feet per second. This rate of flow over a 120 day irrigation season would be 6.664 acre feet for each miner's inch.

Jan 9, 1891 By Order, the Lieutenant Governor-in-Council authorized that a grant of water rights be made in favour of the Cayoose Creek Band for Cayoosh Creek 1.

> *"One hundred inches of water from Cayoosh Creek to be conveyed by the present ditch on to the Reserve."*

June 11, 1920 At a final hearing before the Board of Investigation, acting pursuant to the *Water Act 1914*, the Board determined that a valid water record affecting the claim of the Department of Indian Affairs to rights to the use of the waters of Cayoosh Creek and Lush Spring Creek was made under the authority of an Act passed prior to the 12th day of March, 1909. The Order of the Board, numbered 2677, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Cayoosh Creek and Lush Spring Creek,
(ii) take precedence from the 23rd day of February, 1891,
(iii) authorize the diversion of a maximum of 615 acre feet of water a year for the irrigation of 205 acres of Cayoosh Creek Indian Reserve (No. 1 Cayoosh Creek), provided that 1,000 gallons of water a day throughout the year could also be used for domestic purpose.

Jan 24, 1924 The Comptroller of Water Rights issued Conditional Water Licence 7370 which embodied the terms and conditions set out in Board Order 2677.

June 20, 1932 The Comptroller of Water Rights issued Final Water Licence 8165 to the Superintendent-General of Indian Affairs. This licence, issued in substitution of Conditional Water Licence 7370, was given a date of precedence of February 23, 1891, and authorized the diversion of 55 acre feet of water a year from Lush Spring Creek and Cayoosh Creek for the irrigation of 18.4 acres of part of Cayoosh Creek I.R. (No. 1 Cayoosh Creek), provided that of this quantity 1,000 gallons a day could be used throughout the year for domestic purpose.

A lesser quantity of water was authorized with the issue of Final Water Licence 8165 as being sufficient for the area to be irrigated.

June 17, 1965 The Comptroller of Water Rights recorded Final Water Licence 8165 as abandoned in accordance with a letter of abandonment filed by the Indian Commissioner. The Indian Commissioner abandoned Final Water

Licence 8165 as new licences had been issued to the Band on Seton River for the irrigation of Cayoosh Creek 1.

There is nothing on file to indicate that the Cayoose Creek Band was consulted with regards to the abandonment of Final Water Licence 8165.

Current Status:

Cayoosh Creek

There are no water licences on Cayoosh Creek for the benefit of the Cayoose Creek Band.

There are four third party licences and three applications on Cayoosh Creek. Of the licences:

- three authorize the diversion of water for power purposes, for a total quantity authorized of 2,606,284 acre feet per annum and 1,500 cubic feet per second.
- one authorizes the diversion of 2,000 gallons of water a day for domestic purpose.
- one authorizes the diversion of 100 cubic feet of water per second for conservation purpose.
- one authorizes the storage of 30 acre feet of water a year for power storage purpose.

Note: Some licences may be for more than one purpose.

Of the applications:

- one is for the right to divert 1 acre foot of water for irrigation purpose and 500 gallons a day for domestic purpose.
- one is for the right to divert 100 cubic feet of water per second for conservation purpose.
- one is for the right to store 9,000 acre feet a year.

An Engineer's report, dated April 22, 1991, for an application on Cayoosh Creek recommended that Cayoosh Creek be noted in water licensing records as having possible water shortages.

On March 27, 1991 by Order, the Lieutenant Governor in Council reserved the unrecorded waters of Cayoosh Creek, and its tributaries, which drain into Seton River within the Ashcroft Water District. These waters were reserved for a flow of 20 cubic feet per second for the use of the Crown for conservation purposes to maintain a flow in the stream for the fishery resource; and, a flow of 7 cubic feet per second for waterworks purpose on behalf of the Village of Lillooet.

Water Survey of Canada reported streamflow records on Station 08ME022, Cayoosh Creek near Lillooet, from 1914 to 1926 and from 1955 to 1990. These streamflow records reported a low mean monthly flow of 4.54 cubic metres per second in February, increasing to a high in May of 57.3 cubic metres per second.

Lush Spring Creek

There are no licences on Lush Spring Creek for the benefit of the Cayoose Creek Band.

There is one third party licence on Lush Spring Creek which authorizes the diversion of 1,000 gallons a day for domestic purpose.

Notes:

1. The allocation on Cayoosh Creek made by the Indian Reserve Commission was made prior to any licences being issued on the creek.

2. Conditional Water Licence 7370 which allocated 615 acre feet of water per annum to the Cayoose Creek Band was comparable to the Order in Council allocation of 100 inches of water from Cayoosh Creek.

3. There is no indication that the Cayoose Creek Band was consulted with regards to the abandonment of Final Water Licence 8165, which resulted in the loss of licensed rights on Cayoosh Creek and Lush Spring Creek.

4. As there are possible water shortages on Cayoosh Creek and a total of 27 cubic feet of water per second was reserved on the creek by an Order in Council, it may be difficult to obtain licensed rights on Cayoosh Creek in the future.

Charlie Springs

History:

July 11, 1920 At a final hearing before the Board of Investigation, acting pursuant to the *Water Act 1914*, the Board determined that a valid water record affecting the claim of the Department of Indian Affairs to rights to the use of the waters of Charlie Springs was made under the authority of an Act passed prior to the 12th day of March, 1909. The Order of the Board, numbered 2676, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Charlie Springs,
(ii) take precedence from the 16th day of April 1868,
(iii) authorize the diversion of a maximum of 3 acre feet of water a year for the irrigation of 1 acre of Cayoosh Creek Indian Reserve (No. 1 Cayoosh Creek), provided that 500 gallons of water a day throughout the year could also be used for domestic purpose.

Jan 25, 1924 The Comptroller of Water Rights issued Conditional Water Licence 7369, which embodied the terms and conditions set out in Board Order 2676.

June 30, 1932 The Comptroller of Water Rights issued Final Water Licence 8164 to the Superintendent-General of Indian Affairs. This licence, issued in substitution of Conditional Water Licence 7369, was given a date of precedence of April 16, 1868, and authorized the diversion of 1.5 acre feet of water a year from Charlie Spring for the irrigation of a 0.5 acre of part of the Cayoose Indian Reserve (No. 1 Cayoosh Creek), provided that of this quantity 500 gallons a day could be used throughout the year for domestic purpose.

A lesser quantity of water was authorized with the issue of Final Water Licence 8164 as being sufficient for the area to be irrigated.

Current Status:

There are three licences reported on Charlie Springs. Of these licences:

- two authorize the diversion of small quantities of water for irrigation purpose, with a total amount authorized of 10.5 acre feet per annum.
- two authorize the diversion of 500 gallons of water a day for domestic purpose.

Note: some licences authorize more than one purpose.

Final Water Licence 8164, in the name of the Cayoose Creek Band, is first in priority on Charlie Springs. There is no information on file with respect to the exercise of rights under this licence.

Notes:

1. The issue of Final Water Licence 8164 resulted in a reduction of the volume of water authorized for irrigation from Charlie Springs with respect to the Cayoose Creek Band.

Copeland Brook, McIntyre & Bern Springs

History:

Jan 12, 1926 The Comptroller of Water Rights issued Conditional Water Licence 8311 to Harry Graham, Indian Agent, in trust for the Indians located on the Cayoosh Indian Reserve No. 1. This licence was given a date of precedence of June 17, 1920, and authorized the diversion of 52.5 acre

feet of water a year from Copeland, McIntyre and Bern Springs for the irrigation of 17.5 acres of part of Cayoosh Creek Indian Reserve No. 1, provided that of this quantity 1,000 gallons of water a day may be used throughout the year for domestic purpose.

June 30, 1932

The Comptroller of Water Rights issued Final Water Licence 8166 to the Superintendent-General of Indian Affairs. This licence, issued in substitution of Conditional Water Licence 8311, was given a date of precedence of June 17, 1920 and authorized the diversion of 11.5 acre feet of water a year from Copeland, McIntyre and Bern Springs for the irrigation of 3.7 acres of Cayoosh Creek I.R. No. 1, provided that of this quantity 1,000 gallons of water a day may be used throughout the year for domestic purpose.

A lesser quantity of water was authorized with the issue of Final Water Licence 8166 as being sufficient for the area to be irrigated.

Sept 4, 1974

In accordance with an investigation which determined that the source Copeland Spring should be known as Copeland Brook, the Deputy Comptroller of Water Rights issued an order amending the source names on Final Water Licence 8166 to Copeland Brook and McIntyre and Bern Springs.

July 29, 1987

In accordance with an investigation that determined that the works authorized under Final Water Licence 8166 had changed, the Regional Water Manager issued Conditional Water Licence 65692 in substitution of Final Water Licence 8166 to Indian Affairs, Cayoose Creek Indian Band. This licence was given a date of precedence of June 17, 1920 and authorized the diversion of 500 gallons of water a day from Copeland Brook for domestic purpose and 10.83 acre feet of water a day from Copeland Brook for the irrigation of 3.61 acres of Cayoosh Creek Indian Reserve No. 1.

The Engineer's Report for Conditional Water Licence 65692 indicated that the Band was consulted with regards to the use McIntyre Spring and Bern Spring. The Band confirmed that these springs were no longer utilized as sources.

Aug 29, 1995

The Cayoose Creek Band filed an application for the right to divert 1,500 gallons of water a day and 80 acre feet of water a year from Copeland Brook for domestic and irrigation purposes, for use on Cayoosh Creek 1.

Current Status:

There are no active water licences on McIntyre Spring or Bern Spring.

There are a total of seven water licences and one application on Copeland Brook. Of the licences:

- Eight authorize the diversion of water for irrigation purpose, for a total quantity authorized of 25.08 acre feet per annum.
- Five authorize the diversion of water for domestic purpose, for a total quantity authorized of 2,500 gallons a day.

Conditional Water Licence 65692, which is third in priority, is the only licence on Copeland Brook for the benefit of the Cayoose Creek Band. There is no recent information on file with respect to the exercise of rights under this licence.

The single application on Copeland Brook was filed by the Cayoose Creek Band. A third party's objection to this application was submitted to the Regional Water Manager on September 28, 1995. The application is still in the preliminary stages and will require investigation.

Notes:

1. The issue of Final Water Licence 8166, in substitution of Conditional Water Licence 8311, resulted in the loss of licensed rights on Copeland Brook and McIntyre and Bern Springs for the Cayoose Creek Band.

2. The Band was consulted regarding the issuance of Conditional Water Licence 65692 which resulted in the loss of licensed rights on McIntyre and Bern Springs.

Seton River

History:

Mar 2, 1955 A agreement was formed between the Minister of Citizenship & Immigration and the British Columbia Electric Company Limited and a copy was filed with the Comptroller of Water Rights. The Minister agreed to sell 60.20 acres of Cayoosh Indian Reserve 1 to the Company, so that the Company could construct a power canal on Cayoosh Creek Reserve 1. The conditions of this agreement were:

i) The Company would make available to Band three 4 inch openings on the north side of the canal so that the Band could divert 276

acre feet of water a year for irrigation purpose and 3,000 gallons of water a day for domestic purpose.

ii) The Company would construct at each of the four inch openings a hand operated valve and stilling box.

iii) The Company would consent to any application made to the Comptroller of Water Rights for amendments to or issue of a new licence in substitution of Final Water Licence 8165. [Final Water Licence 8165 authorized the right to divert water from Lush Spring Creek and Cayoosh Creek.]

iv) The Minister would take full responsibility for the maintenance and operation of the works and openings on the power canal.

v) That this agreement shall ensure to the benefit of and be binding upon the parties hereto and their successors and assigns.

June 2, 1958

The Comptroller of Water Rights issued Conditional Water Licence 24230 to the Director of Indian Affairs in accordance with an application filed by the same office. This licence was given a date of precedence of March 7, 1955, and authorized the diversion of 276 acre feet of water a year from Seton Creek for the irrigation of 92 acres of Indian Reserve No. 1, Cayoosh Creek.

The Director of Indian Affairs indicated the intention of the application was to replace Final Water Licences 8164 and 8165 and to irrigate additional land.

The Director of Indian Affairs also applied for the right to divert 3,000 gallons a day for domestic purpose. However, the Engineer's report for Conditional Water Licence 24230 indicated that according to the Indian Agent the works associated with the licence were only for irrigation purposes and they had no current plans to build works which would be capable of diverting water for domestic purpose. The report further stated that domestic rights could probably be granted at any time in the future if suitable works are proposed.

The application also stated the source to be Cayoosh Creek; however, upon investigation it was found that the water was to be diverted from a power canal off Seton Creek.

July 2, 1964

1) The Comptroller of Water Rights issued Final Water Licence 18442 to the Director of Indian Affairs. This licence, issued in substitution of Conditional Water Licence 24230, was given a date of precedence of March 7, 1955, and authorized the diversion of 82.5 acre feet of water a year from Seton Creek for the irrigation of 27.5 acres of Indian Reserve No. 1, Cayoosh Creek, Lillooet District.

A lesser quantity of water was authorized with the issue of Final Water Licence 18442 as being sufficient for the area to be irrigated. The Engineer's Report for the Final Licence stated,

> *"Mr. Meek, Indian Superintendent, Lytton, states he is quite prepared to have final licence issue for this reduced acreage. This Indian Reserve is located on a gravelly fan of Cayoosh Creek, most of which is too gravelly for crops."*

2) The Comptroller of Water Rights issued Final Water Licence 18443 to the Director of Indian Affairs in accordance with an application filed by the same office. This licence was given a date of precedence of June 14, 1962 and authorized the diversion of 4,000 gallons of water a day for waterworks purpose for use on Indian Reserve No. 1, Cayoosh Creek, Lillooet District.

The Director of Indian Affairs applied for this waterworks licence after realizing that the domestic quantity applied for under Conditional Water Licence 24230 was not included in the licence. Although, at the time Conditional Water Licence 24230 was issued, the Indian Superintendent stated domestic rights were not required.

Oct 1, 1966 The Comptroller of Water Rights issued Conditional Water Licence 31475 to the Minister of Fisheries, Canada in accordance with an application filed by the same office. This licence was given a date of precedence of January 18, 1966, and authorized the diversion of 40 cubic feet of water a second from Seton Creek for conservation (artificial spawning channel) purpose for use on the project area of the licensee on Parcel A of Indian Reserve No. 1, Cayoosh Creek, as shown on the plat included with the licence.

Aug 12, 1984 The Cayoose Creek Band applied for the right to divert 39 acre feet of water a year from Seton River for domestic and commercial purposes for use on Cayoose Creek Reserve No. 1.

Mar 20, 1987 The Regional Water Manager noted the Cayoose Creek Band's water application on Seton River as abandoned in accordance with an abandonment notice received from the Cayoose Creek Band Manager. It was found that the application was redundant to those rights already authorized under Final Water Licence 18443.

Current Status:

There are a total of seven licences and five applications on Seton River. Of the licences:

- one authorizes the diversion of 2,606,284 acre feet a year for power purpose.
- two authorize the diversion of water for irrigation purposes, for a total amount authorized of 181.5 acre feet per annum.
- two authorize the diversion of water for conservation purposes, for a total amount authorized of 50 cubic feet per second.
- one authorizes the diversion of 4,000 gallons of water a day for waterworks purpose.
- one authorizes the diversion of 730,000,000 gallons of water a year for local authority waterworks.

Of the applications:

- one is for the right to divert 2,000 gallons a day for public facilities purpose.
- one is for the right to divert 1,500,000 gallons of water a day for domestic purpose.
- one is for the right to divert water for fire prevention.
- two are for the right to divert water for conservation purposes.

Final Water Licence 18442 (second in priority), Final Water Licence 18443 (fifth in priority) and Conditional Water Licence 31475 (sixth in priority) are the only licences on Seton River for the benefit of the Cayoose Creek Band. There is no recent information on file with respect to the exercise of rights under Final Water Licences 18442 and 18443. The land to which Conditional Water Licence 31475 is appurtenant is held by Fisheries and Oceans Canada, lessee.

B.C. Hydro is the current owner of the power canal which runs through the Cayoosh Creek 1 Reserve and provides the carriage of water as authorized under the Cayoose Creek Band's water licences.

Water Survey of Canada reported streamflow records on Station 08ME003, Seton River near Lillooet, from 1914 to 1926 and from 1950 to 1990. These streamflow records reported a low mean monthly flow of 15.4 cubic metres per second in January, increasing to a high in June of 46.3 cubic metres per second.

Notes:

1. The application for Conditional Water Licence 24230 was for the right to divert water for irrigation and domestic purposes; however, after consultation with the Indian Agent the licence was issued for irrigation purpose only. Six years after the issue of Conditional Water Licence 24230 the Cayoose Creek Band was issued a domestic licence from an application (Final Water Licence 18443) with a later priority date.

2. The issue of Final Water Licence 18442 in substitution of Conditional Water Licence 24230 resulted in the loss of licensed rights on Seton River with respect to the Cayoose Creek Band. However, an Indian Commissioner was consulted with regards to the reduction of the quantity authorized under Final Water Licence 18442.

3. The agreement between the Minister of Citizenship & Immigration and the British Columbia Electric Company appears to still be in effect.

PASHILQUA #2

History:

Aug 29, 1881 Minute of Decision of the Indian Reserve Commission, constituting Pashilqua 2 Reserve:

> *"The surplus water of a number of springs* situated on this reserve is assigned to the use of the Indians."*

Jan 9, 1891 By Order, the Lieutenant Governor-in-Council authorized that a grant of water rights be made in favour of the Cayoose Creek Band for Pashilqua 2.

> *"Twenty-five inches of water from a spring running through the Reserve."*

*Note: The identity of the springs is unknown.

Notes:

1. As the springs are unidentified, it is not known if allocations made under the *Water Act 1914*, have been made that are comparable to the allocations made by the Indian Reserve Commission and the Order in Council.

Napoleon Creek

History:

Apr 8, 1918 — The Comptroller of Water Rights issued Conditional Water Licence 3127 to Harry Graham, as Indian Agent for the Indians on the Cayoosh Creek Indian Reserve No. 2 in accordance with the Indian Agent's application. This licence was given a date of precedence of August 16, 1916, and authorized the diversion of 50 acre feet of water a year from a spring south of Cayoosh Creek Indian Reserve No. 2 for the irrigation of 20 acres of part of the Cayoosh Creek Indian Reserve No. 2, provided that of this quantity 1,000 gallons a day may be used throughout the year for domestic purpose.

Jan 30, 1923 — The Comptroller of Water Rights issued Final Water Licence 3745 to Harry Graham, as Indian Agent for the Indians on the Cayoosh Creek Indian Reserve No. 2. This licence, issued in substitution of Conditional Water Licence 3127, was given a date of precedence of August 16, 1916, and authorized the diversion of 25 acre feet of water a year from Napoleon Creek for the irrigation of 10 acres of part of the Cayoosh Creek Indian reserve No. 2, provided that of this quantity 1,000 gallons a day may be used throughout the year for domestic purpose.

A lesser quantity of water was authorized with the issue of Final Water Licence 3745 as being sufficient for the area to be irrigated.

Current Status:

Final Water Licence 3745, in the name of the Cayoose Creek Band, is the only active licence on Napoleon Creek.

There is no recent information on file with respect to the exercise of rights under this licence.

Notes:

1. The issue of Final Water Licence 3745, in substitution of Conditional Water Licence 3127, resulted in the loss of licensed rights on Napoleon Creek with respect to the Cayoose Creek Band.

Pashilqua Brook and an unnamed spring

History:

June 11, 1920 At a final hearing before the Board of Investigation, acting pursuant to the *Water Act 1914*, the Board determined that a valid water record affecting the claim of the Department of Indian Affairs to the rights to the use of the waters of springs on the Pashilqua Indian Reserve was made under the authority of an Act passed prior to the 12th day of March, 1909. The Order of the Board, numbered 2672, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from springs on the Pashilqua I.R.,
(ii) take precedence from the 23rd day of February, 1891,
(iii) authorize the diversion of a maximum of 651 acre feet of water a year for the irrigation of 217 acres of Pashilqua I.R. (No. 2 Cayoosh Creek), provided that 1,000 gallons of water a day throughout the year could also be used for domestic purpose.

Oct 22, 1923 The Comptroller of Water Rights issued Conditional Water Licence 7161, which embodied the terms and conditions set out in Board Order 2672.

June 20, 1932 The Comptroller of Water Rights issued Final Water Licence 8161 to the Superintendent-General of Indian Affairs. This licence, issued in substitution of Conditional Water Licence 7161, was given a date of precedence of February 23, 1891, and authorized the diversion of 32 acre feet of water a year from Pashilqua Brook for the irrigation of 10.5 acres of Pashilqua Indian Reserve (No. 2 Cayoosh Creek), provided that of this quantity 1,000 gallons a day may be used throughout the year for domestic purpose.

A lesser quantity of water was authorized with the issue of Final Water Licence 8161 as being sufficient for the area to be irrigated.

The Engineer's report for Final Water Licence 8161 indicated that the unnamed spring, authorized as a source under Conditional Water Licence 7161, was not being utilized and only Pashilqua Brook was required as a licensed source.

Current Status:

Final Water Licence 8161, in the name of the Cayoose Creek Band, is the only active water licence on Pashilqua Brook.

There is no recent information on file with respect to the exercise of rights under this licence.

Notes:

1. The issue of Final Water Licence 8161, in substitution of Conditional Water Licence 7161, resulted in a reduction of the volume of water authorized for irrigation purposes from Pashilqua Brook, with respect to the Cayoose Creek Band.

2. The issue of Final Water Licence 8161 resulted in the loss of licensed rights on the unnamed spring with respect to the Cayoose Creek Band

OTHER INFORMATION:

Additional Water Records:

An additional fishing right was allocated in the Minute of Decision of the Indian Reserve Commission, dated August 29, 1881, with respect to the Cayoose Creek Band.

> *"The exclusive right of fishing on the right bank of Fraser river, from the mouth of Cayoosh creek down stream 2 and 1/2 miles."*

Alternate Water Sources:

Groundwater:

Review of records of the Groundwater Section finds evidence of one well on Cayoosh Creek 1 and one well on Pashilqua 2. The well on Pashilqua 2 yields 1 gallon of water a minute. There is no reported yield for the well on Cayoosh Creek 1. Further details are attached to this report. The extent to which these wells are utilized at this time is unknown and as provision of this information is voluntary, it can not be assumed to be complete.

Municipal Water Supply:

The proximity of Cayoosh Creek #1, Pashilqua #2 and Pashilqua #2A to Lillooet, north of the Reserves, presents the potential for water supply to the Reserves via a municipal water system.

The Village of Lillooet has licences to obtain water from Dickey Creek, Seton River, Town Creek and Tyee Jimmie Creek for waterworks purposes, with a total amount authorized of 966,009,000 gallons of water a year. In 1993 the Village of Lillooet experienced a peak daily demand of 102,000,000 gallons of water, well over their authorized maximum daily allowance under their licences; however, their annual demand is well within licensed rights.

Summary of Water Rights Record

Cayoose Creek First Nation

Water Source	Priority Date	Reserve Name	File No.	Document Type	Status	Superceded By	Licence PUC/MOD & OIC Allotments	Comments
Cayoosh Creek	1891/01/09	Cayoosh Creek #1		OIC			*"100 inches of water"* (converted equivalent=666.4 AF)	As there are possible water shortages on Cayoosh Creek and a total of 27 cubic feet of water per second was reserved on the creek by an OIC, it may be difficult to obtain licenced rights on Cayoosh Creek in the future.
Cayoosh Creek	1881/08/29	Cayoosh Creek #1	AGBC 590463	MOD			*"250 inches of water"(converted equivalent=1666AF)*	IRC Allocations: Not formally recognized by the Province.
Cayoosh Creek, Lush Spring Creek	1891/02/23	Cayoosh Creek #1	0015161	C 7370	Superceded	F 8165	1,000 GD/Incidental Domestic 615 AF/Irrigation	CL7370 was comparable to the OIC allocation of 100 inches of water from Cayoosh Creek.
Cayoosh Creek, Lush Spring Creek	1891/02/23	Cayoosh Creek #1	0015161	F 8165	Abandoned		1,000 GD/Incidental Domestic 55 AF/Irrigation	No indication that the Band was consulted. Loss of rights on Cayoosh Creek and Lush Spring Creek.
Charlie Springs	1868/04/16	Cayoosh Creek #1	0241108	C 7369	Superceded	F 8164	500 GD/Incidental Domestic 3 AF/Irrigation	

Water Source	Priority Date	Reserve Name	File No.	Document Type	Status	Superceded By	Licence PUC/MOD & OIC Allotments	Comments
Charlie Springs	1868/04/16	Cayoosh Creek #1	0241108	F 8164	Current		500 GD/Domestic 1.50 AF/Irrigation	FL8164 resulted in a reduction of the volume of water authorized for irrigation from Charlie Springs with respect to the Cayoose Creek Band.
Copeland Brook, McIntyre, Bern Springs	1920/06/17	Cayoosh Creek #1	0022129	C 8311	Superceded	F 8166	1,000 GD/Incidental Domestic 615 AF/Irrigation	
Copeland Brook, McIntyre, Bern Springs	1920/06/17	Cayoosh Creek #1	0022129	F 8166	Superceded	C 65692	1,000 GD/Incidental Domestic 11.50 AF/Irrigation	FL8166 in substitution of CL8311 resulted in the loss of licenced rights on Copeland Brook and McIntyre and Bern Springs for the Cayoose Creek Band.
Copeland Brook	1920/06/17	Cayoosh Creek #1	0022129	C 65692	Current		500 GD/Domestic 10.83 AF/Irrigation	The Band was consulted regarding the issuance of CL65692 which resulted in the loss of licenced rights on McIntyre and Bern Springs.
Copeland Brook	1995/09/11	Cayoosh Creek #1	3002992	Z 110153	Current		1,500 GD/Domestic 80 AF/Irrigation	

Water Source	Priority Date	Reserve Name	File No.	Document Type	Status	Superceded By	Licence PUC/MOD & OIC Allotments	Comments
Seton River	1955/03/07	Cayoosh Creek #1	0207051	C 24230	Superceded	F 18442	276 AF/Irrigation	The application for CL24230 was for the right to divert water for irrigation and domestic purposes; however, after consultation with the Indian Agent the licence was issued for irrigation purpose only. Six years after the issue of CL24230 the Cayoose Creek Band was issued a domestic licence from an application (FL18443) with a later priority date.
Seton River	1955/03/07	Cayoosh Creek #1	0207051	F 18442	Current		82.50 AF/Irrigation	FL18442 in substitution of CL24230 resulted in the loss of licenced rights on Seton River with Respect to the Cayoose Creek Band. However, an Indian Commissioner was consulted with regards to the reduction of the quantity authorized under FL18442.

Water Source	Priority Date	Reserve Name	File No.	Document Type	Status	Superceded By	Licence PUC/MOD & OIC Allotments	Comments
Seton River	1962/06/14	Cayoosh Creek #1	0244478	F 18443	Current		4,000 GD/Waterworks	Six years after the issue of CL24230 the Cayoose Creek Band was issued a domestic licence from an application (FL18443) with a later priority date.

FL8161 resulted in the loss of licenced rights on the unnamed spring with respect to the Cayoose Creek Band.

Geo. A. Walkem

Minutes of Decision.

Cayoosh Indians.

No. 1.

A Reserve of 390 acres, situated at the mouth of Cayoosh creek, and lying in the angle formed by the right bank of Cayoosh creek and the left bank of Fraser river.

Commencing at the site of the old bridge across Cayoosh creek, and running South 10 chains; thence East 40 chains; thence South 20 chains; thence East to Mr. Teschi's boundary (Lot 3, Group 1, Lillooet district); thence Northward along Mr. Teschi's boundary to his North-west corner post; thence N. 75° E. (true) (through a fir tree Mr. Teschi's North-eastern corner post) to the Fraser river; and thence following the banks of Fraser river and Cayoosh creek to the place of commencement.

Water.

250 inches of Water from Cayoosh creek are assigned for use on this Reserve.

Grave-yard.

Cayoosh Indians.

Grave-yard.

A fenced Grave-yard, situated at the North-eastern corner of Lot 3, Group 1, is declared a reserve.

No 2.

A Reserve of 160 acres, situated on the right bank of Fraser river, between Lots 3 and 7, Group 1, Lillooet district:

Commencing at the South-western corner of Lot 3, Group 1, and running West 18 chains; thence South to a point one West of one of Mr E. Teudwig's corner posts as shewn on the accompanying plan; thence East to the said corner post; thence in a North-easterly direction along Mr Teudwig's Northern boundary 35 chains to its North-eastern corner; thence North to the Fraser river; thence up the left bank of the said river to Mr Tesch's South-eastern boundary post; and thence along his Southern boundary to the place of Commencement.

Vide

Sir

I have honour to report that Mr. W. Thomas Indian Agent for this District, gave notice, in the Gazette of March 25th 1889 and also in the Kamloops Sentinel of similar date, of his intention to apply to Chief Commissioner to divert and use for the purposes of Irrigation on Indian Reserves in this District, certain lakes as set out in his Notice of Application.

Mr Thomas now applies for a Record to be made of the various described applications.

The amount of water applied for, in each case, as a rule is very small and with few exceptions are not already claimed by white settlers.

For your reference I have annexed the original Copies of notice of intention, and my remarks on each application, and enclose same herewith, awaiting your instructions with regard Record.

I have the honour to be
Sir
Your Obedient Servant
[illegible]
Asst Commissioner

Hon. Chief Commissioner of Lands & Works
Victoria

McCREERY'S FLAT RESERVE:

Twenty-five inches of water from a spring situate one-half mile east of the Reserve, at the foot of the mountain, to be conveyed, as at present, by a ditch and flume on to the Reserve.

LEMARCHY RESERVE:

No. 1.—Twenty-five inches of water from a small stream running through that part of the Reserve situate near Cayoosh Creek.

No. 2.—Twelve inches of water from a spring upon the flat at the village.

No. 3.—Fifty inches of water from Dickey Creek, to be diverted on the top of the mountain, and conveyed thence into Hoey Creek, and taken entirely by the present ditch. The water to be conveyed in such manner that the water of Hoey Creek shall not be made muddy.

CAYOOSH RESERVE:

No. 1.—One hundred inches of water from Cayoosh Creek, to be conveyed by the present ditch on to the Reserve.

No. 2.—Twelve inches of water from a spring upon the upper flat of the Reserve.

FARRELL'S RESERVE:

Twenty-five inches of water from a spring running through the Reserve.

GARDEN FLAT RESERVE:

Fifty inches of water from a creek running through the Reserve, to be conveyed by the present ditch.

CHUACK RESERVE:

Fifty inches of water from the creek running through the Reserve, to be conveyed by the two present ditches.

CHILCOTIN RESERVE:

No. 1.—One hundred inches of water from Hardy Creek, to be diverted at a point below the road, and conveyed by the present ditch on to the Reserve.

No. 2.—Fifty inches of water from a creek upon that part of the Reserve situate on the east bank of Fraser River, to be conveyed by the present ditch on to the Reserve.

SEVEN LAKE MISSION RESERVE:

No. 1.—Twenty inches of water from a creek running through the square Reserve.

No. 2.—Twelve inches of water from a spring on the small reserve on the south side of lake, nearly opposite No. 1.

No. 3.—Fifty inches of water from a creek on the Reserve, one mile west of Mission Village.

No. 4.—Twelve inches of water from a spring on south side of lake, on a small Reserve nearly opposite the Mission.

SCHLOO RESERVE

No. 1.—Twenty inches of water from a creek running through the Reserve, near the old village.

No. 2.—Twenty inches of water from a creek upon a high bench of the Reserve, and two miles east from No. 1.

No. 3.—One hundred inches of water from Portage River, which flows through the Reserve.

NECAIT RESERVE

Fifty inches of water from a creek running through the Reserve

NEQUATQUA RESERVE

No. 1.—One hundred inches of water from Anderson River, which flows through the Reserve.

No. 2.—Twenty-five inches of water from a small creek running through a Reserve on the Portage Road, about three miles from head of Anderson Lake.

BRIDGE RIVER RESERVE:

No. 1.—Twenty-five inches of water from a small creek running through the Reserve, one mile north of the village on Fraser River.

No. 2.—Fifty inches of water from Big Creek, adjoining a Reserve on Fraser River about eight miles north of No. 1, to be conducted by a ditch under construction.

No. 3. Fifty inches of water from a creek upon the Reserve, and about three miles from the mouth of Bridge River, on the south bank.

No. 4.—Fifty inches of water from a creek upon the Reserve, on the south bank of Bridge River and about 2½ miles up the river from No. 3.

No. 5.—Fifty inches of water from Cannon's Creek, upon the Reserve, about six miles up the river from No. 4, and upon the south bank.

No. 6.—Ten inches of water from a spring upon the reserve, about four miles from the mouth of Bridge River, and upon the north bank.

No. 7.—Fifty inches of water from a creek upon the Reserve, three miles from No. 6, up Bridge River, upon the north bank.

[illegible] except No. 2, are all utilized by means of [illegible] for irrigating the various portions of the [illegible] which are under cultivation.

WM. LAIDLAW MILLER,

[illegible] hundred inches of water from Leon's [illegible] conveyed by the present ditch to the land [illegible] side of said creek.

[illegible] Twenty-five inches of water from a small [illegible] running through the Reserve on south side of [illegible] Creek, to be conveyed by the present ditch on [illegible] that part of the Reserve.

[illegible]TAIN RESERVE:

[illegible] 1.—One hundred inches of water from Fountain [illegible] Creek, to be diverted at the present ditch head.

No. 2.—The right to build a dam at the outlet of a [illegible] situate at the head of Fountain Creek, and at [illegible] mile of said creek, and to store the water of the [illegible] creek in said lake in the spring and fall, when it is [illegible] used and runs to waste: the water thus stored to [illegible] conveyed by the creek to the present ditch head, [illegible] thence conveyed by said ditch on to the Reserve.

McCARTNEY'S FLAT RESERVE:

Twenty-five inches of water from a spring situate [illegible] half mile east of the Reserve, at the foot of the [illegible] mountain, to be conveyed, as at present, by a ditch [illegible] same on to the Reserve.

[illegible]LLOOET RESERVE:

[illegible] 1.—Twenty-five inches of water from a small [illegible] running through that part of the Reserve [illegible] situate near Cayoosh Creek.

[illegible] 2.—Twelve inches of water from a spring upon [illegible] flat at the village.

No. 2.—Fifty inches of water from Dickey Creek, to be diverted on the top of the mountain, and conveyed thence into Hoey Creek, and taken out again by the present ditch. The water to be conveyed in such manner that the water of Hoey Creek shall not be made muddy.

CAYOOSE RESERVE:

No. 1.—One hundred inches of water from Cayoose Creek, to be conveyed by the present ditch on to the Reserve.

No. 2.—Twelve inches of water from a spring upon the upper flat of the Reserve.

PASHILQUA RESERVE:

Twenty-five inches of water from a spring running through the Reserve.

GARDEN FLAT RESERVE:

Fifty inches of water from a creek running through the Reserve, to be conveyed by the present ditch.

CHUACK RESERVE:

Fifty inches of water from the creek running through the Reserve, to be conveyed by the two present ditches.

COLCHOPA RESERVE:

No. 1.—One hundred inches of water from Hardy Creek, to be diverted at a point below the road, and conveyed by the present ditch on to the Reserve.

No. 2.—Fifty inches of water from a creek upon that part of the Reserve situate on the east bank of Fraser River, to be conveyed by the present ditch on to the Reserve.

SETON LAKE MISSION RESERVE:

No. 1.—Twenty inches of water from a creek running through the Ignace Reserve.

No. 2.—Twelve inches of water from a spring on the small reserve on the south side of lake, nearly [illegible]

PROVINCE OF BRITISH COLUMBIA. **WATER RIGHTS BRANCH.** DEPARTMENT OF LANDS.

CONDITIONAL WATER LICENCE

(IRRIGATION)

WHEREAS Harry Graham, as Indian Agent for the Indians on the Cayoosh Creek Indian Reserve No. 2, whose post-office address is Lytton, B. C.

as owner or lawful occupant of the land hereinafter specified, has applied for a licence to take and use water in the manner hereinafter set out, and has taken all the preliminary steps required of such applicant under the "Water Act, 1914," prior to the issue of this licence, and is, under the said Act, entitled thereto:

(1.) Now, therefore, in pursuance of the said Act, this conditional licence is issued, granting the licensee thereunder the right to take and use water under the following terms and conditions:—

(*a*.) The source of the water-supply is a spring South of Cayoosh Creek Indian Reserve No.2, as shown in exhibit marked "A" hereto attached. a tributary of .....

(*b*.) The point of diversion from the stream is located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which is attached to the counterfoil of this licence on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria.

(*c*.) The date from which this licence shall take precedence is 16th August, 1916.

(*d*.) The purpose for which the water is to be used is irrigation.

(*e*.) The maximum quantity of water which may be used at the place of use when all the lands mentioned in item (*g*) hereof are under irrigation is, until lawfully altered, 50 acre-feet per annum; and the maximum quantity which may be used per acre at the said place of use in any year is 2½ acre-feet: Provided that if any records have been issued, or if any other licences have been or may hereafter be issued, for the use of water upon the said lands, the maximum quantity allowed under this licence shall be reduced by such quantities as may from time to time be used upon the said lands under such other records or licences, including the records or licences at present outstanding, namely, Licence No. ---------- from ---------- (Stream.)

and Licence No. ------- from ---------- (Stream.)

And provided further that in such cases the Comptroller may, after the requisite hydrographic data has been accumulated for determining the particular quantity of water which may be used under this licence, require the surrender thereof for the purpose of readjustment, and may amend the same by stating therein such particular quantity so determined. The maximum quantity which may be diverted from the stream per annum is 2½ acre-feet per acre of land irrigated and an additional amount for reasonable seepage and evaporation.

And provided further that there may be used in addition one thousand gallons of water per day throughout the whole year for domestic purpose as being incidental to the irrigation purpose.

Licence Number 3127

Form 1004, W.R.B. (Conditional Licence—Irrigation).—1,000-5-17.

File No. 37192.

Copy for Comptroller

(*f.*) The period of the year during which the water may be used is 1st April to 30th September.

(*g.*) The area and description of the irrigable lands to which this right may extend on completion of works and beneficial use of the water in the irrigation of the said lands are about 20 acres, comprising part of the Cayoosh Creek Indian Reserve No. 2.

The extent and location of the said irrigable lands are further shown in the said exhibit "A."

(*h.*) The other terms and conditions respecting the right are:—

(1.) Works for the diversion and the carriage of the water as set forth in the exhibit marked "B" which is hereto attached and hereby made a part hereof shall be constructed in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(2.) The said construction shall be commenced on or before the first day of May, 19 19

(3.) The said construction shall be prosecuted with due diligence and to the satisfaction of the Comptroller, and shall be completed on or before the thirtieth day of September, 19 22

(4.) The lands described in clause (*g*) hereof shall have been properly prepared for irrigation and shall have been irrigated beneficially from the said works on or before the thirtieth day of September, 19 22

(5.)

(*i.*) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

(*j.*)

(2.) This licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

Issued this eighth day of April, 191 8.

CONDITIONAL WATER LICENCE.

(For an Irrigation Purpose.)

WHEREAS the Board of Investigation, constituted and acting under the "Water Act, 1914," duly held an investigation respecting the water set out in the order No. 2672, duplicate of which is hereto attached, and in the said order directed the Comptroller of Water Rights to issue a conditional licence in respect of the particular record and claim respectively set out therein, and further therein named the terms and conditions to be embodied in the said licence:

NOW, THEREFORE, I, Comptroller of Water Rights of the Province of British Columbia, in pursuance of the said order and in conformity with the "Water Act, 1914," issue this conditional licence, and declare the rights in and to the use of the said waters held under the said record in respect of the said claim to be such as are set out in the said order; and the terms and conditions of the said order and any exhibits which are therewith incorporated are hereby incorporated herewith and form a part hereof. This licence is appurtenant to Pashilqua I.R. (No.2 Cayoosh Creek).

PROVINCE OF BRITISH COLUMBIA. | WATER RIGHTS BRANCH. | DEPARTMENT OF LANDS.

DETERMINATION AND ORDER.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters

of springs on the Pashilqua I.R. (No.2 Cayoosh Creek).

in the neighbourhood of Lillooet, in the

Lillooet Water District.

NOW, on the 11th day of June, 1920, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 18-16-1) that a valid water record effecting the said claim was made under authority of an Act passed prior to the 12th day of March, 1909, and that under the said water record the Cayoosh Creek tribe or band of Indians was granted a right to take and use water from springs on the Pashilqua Indian Reserve for irrigation and domestic purposes on the said Pashilqua Indian Reserve, being Reserve No.2 of the said tribe or band.

Form 580. W.R.B.—2,000-12-20.

Order No. 2672.

Copy for Comptroller

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a*.) The sources of the water supply are springs on the Pauhilqua I.R. (No.2 Cayoosh Creek).

(*b*.) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c*.) The date from which the said licence shall take precedence is 23rd February, 1921.

(*d*.) The purpose for which the water is to be used is irrigation.

(*e*.) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is 651 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is three (3) acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f*.) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g*.) The water may be used on the Pauhilqua I.R. (No.2 Cayoosh Creek) of which 217 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h*.) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i*.) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j*.) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930.

(*k*.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

Board Order No.2672.

(*k*.) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 2,000 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purpose, such quantity of water (not exceeding ---------- acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of ---------- and it may be stored (accumulated) in a reservoir at ---------- between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (*d*), (*e*), and (*f*) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (*e*) hereof.

(*m*.) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(*n*.) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

.....

.....

.....

.....

.....

3. Pending the issue of the licence hereby authorized to be issued, the terms and conditions of this order shall govern the respective rights of the record-holders or claimants affected thereby.

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a.*) The sources of the water supply is Charlie Springs on Lot 4704, Lillooet.

(*b.*) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c.*) The date for which the said licence shall take precedence is 16th April, 1868.

(*d.*) The purpose for which the water is to be used is irrigation.

(*e.*) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is three (3) acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is three (3) acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f.*) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g.*) The water may be used on the Cayoosh Creek I.R. (No.1 Cayoosh Creek) of which one (1) is acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h.*) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i.*) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j.*) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930.

(*k.*) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

7369

Board Order No.2676.

(*l.*) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 500 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purpose, such quantity of water (not exceeding ---------- acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of ---------- and it may be stored (accumulated) in a reservoir at ---------- between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (*d*), (*e*), and (*f*) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (*c*) hereof.

(*m.*) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(*n.*) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

Form 380. W.R.B.—2,000-12-20. Order No. 2677.

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a*.) The sources of the water supply are Cayoosh Creek, a tributary of Fraser River, and Lush Spring Creek.

(*b*.) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c*.) The date ~~for~~ from which the said licence shall take precedence is 23rd February, 1891.

(*d*.) The purpose for which the water is to be used is irrigation.

(*e*.) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is 615 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is three (3) acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f*.) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g*.) The water may be used on the Cayoosh Creek Indian Reserve (No.1 Cayoosh Creek) of which 205 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h*.) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i*.) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j*.) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930.

WATER RIGHTS BRANCH.

DEPARTMENT OF LANDS.

CONDITIONAL WATER LICENCE.
(IRRIGATION.)

Appurtenant to 17.5 acres of Cayoosh Creek, Indian Reserve No. 1.

WHEREAS HARRY GRAHAM, Indian Agent, in trust for the Indians located on the Cayoosh Indian Reserve No. 1., whose post-office address is Lillooet, B. C. as owner or lawful occupant of the land hereinafter specified, has applied for a licence to take and use water in the manner hereinafter set out, and has taken all the preliminary steps required of such applicant under the "Water Act" prior to the issue of this licence, and is, under the said Act, entitled thereto:

Now, therefore, in pursuance of the said Act, this conditional licence is issued, granting the licensee hereunder the right to take and use water under the following terms and conditions:—

(1.) The source of the water-supply is Copeland, McIntyre and Barn Springs the locations of which are shown on Exhibit marked "A" hereto attached

(2.) The point of diversion from the stream is located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which is attached to the counterfoil of this licence on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(3.) The date from which this licence shall take precedence is 17th June, 1920.

(4.) The purpose for which the water is to be used is irrigation and incidentally domestic use.

(5.) The maximum quantity of water which may be diverted for use upon the lands mentioned in clause (7) hereof when all of the said lands are under irrigation is, until lawfully altered 52.5 acre-feet per annum, and such additional quantity as the District Engineer may from time to time determine should be allowed for seepage and evaporation; and the maximum quantity which may be used on any acre of the said lands in any year is 3 acre-feet: Provided that of the said 52.5 acre-feet there may be used 1,000 gallons of water a day throughout the whole year for domestic purpose.

(6.) The period of the year during which the water may be used is 1st April to 30th September.

(7.) The area and description of the lands upon which the water may be used are 17.5 acres, comprising part of Cayoosh Creek, Indian Reserve No. 1.

The extent and location of the said irrigable lands are further shown in the said exhibit "A."

License Number 8311

Form 1004, W.R.B. (Conditional Licence—Irrigation)—1M-725-1764

File No. 022129.

ORIGINAL

(8.) The said lands shall be properly prepared for irrigation and irrigated beneficially from the said works on or before the first day of November, 1930.

(9.) Works for the diversion and the carriage of the water as set forth in the exhibit marked "B" which is hereto attached made a part hereof shall be constructed in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

The said construction has already been commenced.

~~shall be commenced on or before the ~~ day of ~~, 19~~.

The said construction shall be prosecuted with due diligence and to the satisfaction of the Comptroller and shall be completed on or before the first day of November, 1930.

(10.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

(11.) This licence is supplementary to ~~Licence No.~~ for the diversion of ~~acre-feet per annum from~~ and Licence No. ~~for the diversion of~~ acre-feet per annum from ~~, but no more than~~ acre-feet of water (exclusive of the quantity allowed for seepage and evaporation) may be diverted from all sources for use upon the lands described in clause 7 hereof.

(12.) This licence is subject to readjustment when hydrometric surveys have been made of the sources of supply mentioned in clauses (1) and (11) hereof and complete information obtained respecting the requirements of all lands watered therefrom and the licensee shall surrender the licence for amendment when called upon to do so.

(13.) This licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part II. of the "Water Act," and shall be subject to all the provisions of said Act, including especially the provisions of section 74 thereof requiring the filing of proof of the completion of the said works and of making beneficial use of the water as authorized within the time herein prescribed.

(14.)

Issued this 12th day of January, 1926.

DEPARTMENT OF LANDS AND FORESTS

CONDITIONAL WATER LICENCE

Director of Indian Affairs, of Ottawa, Ontario,

is hereby authorized to divert and use water as follows:—

(a) The source of the water-supply is Seton Creek.

(b) The point of diversion is located as shown on the attached plan.

(c) The date from which this licence shall have precedence is 7th March, 1955.

(d) The purpose for which the water is to be used is irrigation.

(e) The maximum quantity of water which may be diverted is 276 acre feet per annum, and such additional quantity as the Engineer may from time to time determine should be allowed for losses.

(f) The period of the year during which the water may be used is 1st April to 30th September.

(g) The land upon which the water is to be used and to which this licence is appurtenant is Indian Reserve No. 1, Cayoosh Creek; of which 92 acres may be irrigated.

(h) The works authorized to be constructed are canal, ditch, flume and pipe

and they shall be located approximately as shown on the attached plan.

(i) The construction of the said works shall be commenced on or before the 31st day of August, 19 58, and shall be completed and the water beneficially used on or before the 31st day of December, 19 60.

The boundaries of the land to which this licence is appurtenant are shown thus: ———

PROVINCE OF BRITISH COLUMBIA. **WATER RIGHTS BRANCH.** DEPARTMENT OF LANDS.

FINAL WATER LICENCE

(Irrigation).

WHEREAS Harry Graham, as Indian Agent for the Indians on the Cayoosh Creek Indian Reserve No. 2, whose address is Lytton, B. C.

is the owner of the lands to which Conditional Licence No. 3127 was made appurtenant, and is the applicant for this licence; and

Whereas satisfactory proof has been duly filed, and it has been shown to the satisfaction of the Comptroller that the terms of the said conditional licence have been complied with satisfactorily, and particularly that the works for the diversion and carriage of the water under the said licence have been completed and that beneficial use of the water has been made thereunder:

Now, therefore, in pursuance of the "Water Act, 1914," this final licence is issued, granting the licensee thereunder the right to take and use water under the following terms and conditions:—

(*a*.) The source of the water-supply is Napoleon Creek, the location of which is a tributary of as shown in the exhibit marked "A" hereto attached.

(*b*.) The point of diversion from the stream is located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is attached to the counterfoil of this licence on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria.

(*c*.) The date from which this licence and the right to take and use water thereunder shall take precedence is 16th August, 1916.

(*d*.) The purpose for which the water is to be used is irrigation.

(*e*.) The maximum quantity of water which may be used at the place of use when all the lands mentioned in item (*g*) hereof are under irrigation is, until lawfully altered, 25 acre-feet per annum; and the maximum quantity which may be used per acre at the said place of use in any year is 2.5 acre-feet: Provided that if any records have been issued, or if any other licences have been or may hereafter be issued, for the use of water upon the said lands, the maximum quantity allowed under this licence shall be reduced by such quantities as may from time to time be used upon the said lands under such other records or licences, including the records or licences at present outstanding, namely, Licence No. - - - - - from - - - - -

is 25 acre feet.

(*f.*) The period of the year during which the water may be used is 1st April to 30th September.

(*g.*) The area and description of the irrigable lands to which this licence shall be appurtenant, subject to beneficial use being made of the water in the irrigation of the said lands, are 14 acres, comprising part of the Cayoosh Creek Indian Reserve No. 2;

; the extent and location of the said lands are further shown by cross-hatching in the said exhibit "A."

(*h.*) The works for the diversion and the carriage of the water consist of Flume and Ditch.

(*i.*) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

(*j.*) The nature and extent of the incidental use (if any) permitted under this licence are 1000 gallons a day Domestic.

but such use shall not enlarge the quantity of water allowed under item (*e*) above.

(*k.*) The diversion of the quantity of water permitted under this licence shall be limited to such rates of flow in the months of the irrigation season as may be determined, after hydrographic surveys, to be reasonable for the production of ordinary crops on the said lands, and the Comptroller may, after such surveys have been made, require the surrender of this licence and may amend the same by specifying therein such maximum rates of flow.

(*l.*) The terms and conditions of this licence shall replace those of the conditional licence hereinbefore referred to.

(*i.*) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

(*j.*) The nature and extent of the incidental use (if any) permitted under this licence are

1000 gallons a day of water to be used throughout the whole year for domestic purpose.

but such use shall not enlarge the quantity of water allowed under item (*e*) above.

(*k.*) The diversion of the quantity of water permitted under this licence shall be limited to such rates of flow in the months of the irrigation season as may be determined, after hydrographic surveys, to be reasonable for the production of ordinary crops on the said lands, and the Comptroller may, after such surveys have been made, require the surrender of this licence and may amend the same by specifying therein such maximum rates of flow.

(*l.*) The terms and conditions of this licence shall replace those of the conditional licence hereinbefore referred to.

(*m.*)

Issued this 30th day of June, 19 32.

FINAL WATER LICENCE

Director of Indian Affairs of Ottawa, Ontario,

is/are hereby authorized to divert and use water as follows:—

(*a*) The source(s) of the water-supply is/are Seton Creek.

(*b*) The point(s) of diversion is/are located as shown on the attached plan.

(*c*) The date from which this licence shall have precedence is 7th March, 1955.

(*d*) The purpose for which the water is to be used is irrigation.

(*e*) The maximum quantity of water which may be diverted is 82.5 acre feet per annum,

and such additional quantity as the Engineer may from time to time determine should be allowed for losses.

(*f*) The period of the year during which the water may be used is 1st April to 30th September.

(*g*) The land upon which the water is to be used and to which this licence is appurtenant is Indian Reserve No.1, Cayoosh Creek, Lillooet District, of which 27.5 acres may be irrigated.

(*h*) The works authorized hereunder are power canal, ditch, flume and pipe,

located as shown on the attached plan.

(*i*) This licence is issued in substitution of Conditional Water Licence No. 24230.

G. J. A. Kidd,
Comptroller of Water Rights.

FOR WATER RECORDER STAMP

GOLD COMMISSIONER
RECEIVED
AUG 09 1984
W.R. 1
CLINTON, B.C.

Application for a Water Licence

WATER ACT

(Section 8)

I/We Cayoose Creek Indian Band
(Full name or names, if band owned specify)

of P.O. Box 615, Lillooet, B.C. V0K 1W0
(Mailing address)

hereby apply to the Comptroller of Water Rights for a licence to {divert and use / store} water out of

Seton and Cayoose Creeks which flows east
(Name of creek, lake, spring) *(General direction of flow)*

and discharges into the Fraser River and give notice of my application to all persons affected.

The point of diversion / impoundment will be located at the mouth of Seton Lake, approx 2 Sections S.E. of Lillooet B.C.
(Give distance and direction from some prominent landmark)

The quantity of water to be diverted or stored is 39 acre - feet per annum year round
(State how per second, gallons per day, or acre-feet per annum)

The purpose for which the water will be used is domestic consumption and commercial use

The land or mine on which the water will be used is Lot
(Full legal description)

Cayoose Creek Indian Reserve No. 1, Vancouver District

A copy of this application was posted on the 3 *(Date)* August *(Month)* 19 84

at the proposed point of diversion or site of the dam and on the land or mine where the water is to be used

and two copies will be filed in the office of the Water Recorder at Clinton, B.C. British Columbia.

Objections to this application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C. V8V 1X5, within thirty days of the serving of a signed copy of the application.

Applicant

By [signature]
Jim Norie, Community Planner
Lillooet District Indian Council
Box 665
Lillooet, B.C.
V0K 1W0
Applicant's address

IMPORTANT

Every applicant must do the following:

(1) Post the application on the ground that is, in conspicuous places at or near the proposed point of diversion, the dam (if any), and place of use.

(2) File two copies with the Water Recorder in whose district the point of diversion will be, within twenty days of the posting on the ground.

(3) Within ninety days of the posting of the application on the ground, serve signed copies on all owners of land or mining property that will be affected physically by the proposed works or by the operation or utilization thereof, and on all licensees or prior applicants whose points of diversion are at or below the applicant's proposed point of diversion.

All copies must be signed and completed by filling in the blanks in the above form; and, in addition, the two copies filed with the Water Recorder must contain a sketch showing the applicant's land, the location of the point of diversion and the dam (if any), and all land touched or crossed by the works, and the additional information indicated on the other side of this form.

Both sides of the two copies filed with the Water Recorder must be fully and correctly completed or the application may have to be returned.

It is advisable to file the application with the Water Recorder as soon as possible after posting it on the ground because the date of filing will, in most cases, determine the priority of the licence that may be issued.

2

NOTE.—This sheet need only be completed on the two copies of the application filed with the Water Recorder.

To the Comptroller of Water Rights:

In support of my application for a water licence I submit the following information:—

(1) My title to the place of use is _____
(Whether registered owner, agreement holder, pre-emptor, etc.)

(2) The proposed works will be B.C. Hydro power canal, and pipe - joint works with
(Give general description—dams, flow, diam, etc.)
existing structures used under licences 18442 and 18463.

(3) The dam to be constructed will be a _____ dam, and
(Give)
will be _____ feet in height, and _____ feet in length.

(4) The maximum area of the reservoir will be _____ acres.

(5) The depth of storage at the dam [illegible] of intake pipe to crest of the spillway, will be _____ feet.

(6) The head of water to be used will be _____ feet.
(Give vertical distance between points)

(7) The area of land to be irrigated will be _____ acres.

(8) (a) The works will be entirely on my own property, or

(b) The works will affect physically the property of the following owners:—

Name of Owners, Including Christian Names	Description of Property	Area affected by the Works	
		Acres	Hundredths
B.C. Hydro and Power Authority	Plan B.C. 11848		

Sketch, showing applicant's land and all other land reached by the works or flooded, also the location of the point of diversion and other works, including buildings to be served with water, if applicable, and the lengths of all ditches, flumes, and pipes.

See attached Exhibit "A".

* Refer also to Licence No. 21712 November 26, 1953.
